

## Company Profile

## Hussey Seatway Ltd

Hussey Seatway Ltd was formed by bringing together Seatway Ltd, a UK company specialising in 'theatre quality' telescopic seating, and the Hussey Seating Company of Maine, USA, the worlds best known producer of telescopic seating and fixed sports seating for arenas, multi-purpose halls and stadiums. We offer a full range of flexible seating products that manage and engineer space within your facility.

### CUSTOM DESIGN

Each project or commission we undertake is custom designed to suit all aspects of the planned facility and so will be unique. Hussey Seatway telescopic seating and theatre chairs are original, innovative and deliver low, lifetime costs to the operator.

### CONCEPTS

We have a very creative design team with immense experience that is open minded and receptive to new concepts and ideas. We like being challenged and are happy to tackle difficult and demanding projects.

### SOLUTIONS

We are seating solutions experts and the directors, Stephen Brackley and David Black are acknowledged experts in the design and use of fixed and telescopic seating systems. The Hussey Seatway team of engineers and project managers have collectively over 150 years of experience providing seating solutions.

Recently we have provided custom projects to;

- Ebert Room, Glynbourne Opera House
- Kortrijk Exhibition Centre, Belgium
- Bideford College
- Bournemouth Pavillion Dance Centre
- The English School, Kuwait
- University of Bath Sports Centre

### MANUFACTURE

We have our own assembly operations and a group of manufacturing partners who operate modern, computer aided manufacturing facilities. These facilities are global and this gives us choices and high standards on five key measures;

QUALITY-TECHNOLOGY-DESIGN-FINANCIAL-COMPETITIVENESS

### MANAGEMENT

We operate our own, sophisticated management system for each and every project we are entrusted with. This enables us to provide clear and visible progress reports for our clients.

### STANDARDS

Your Hussey Seatway products and services will conform to all relevant British and European standards for strength, stability, layout and fire retardancy.

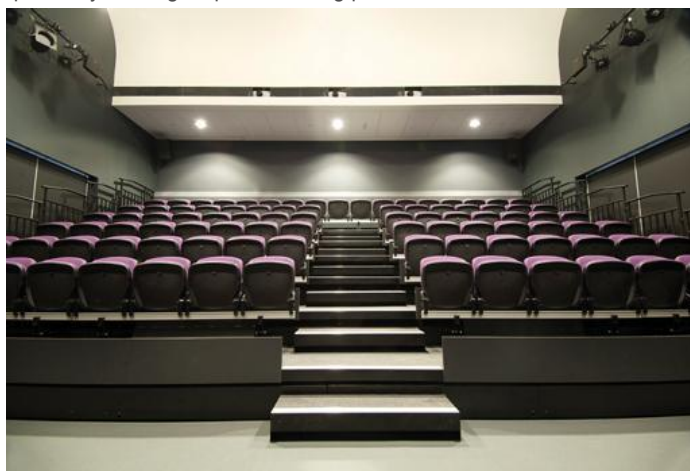

In this respect we are proud to provide management resource to the Institution of Structural Engineers, and the BSi and CEN committees presently working on public seating products.

### PARTNERS

Our joint venture partner is the HUSSEY Seating Company of Maine, USA, the worlds best known manufacturer of telescopic seating for sports and education markets and producers of the award winning QUATTRO & METRO chairs and MAXAM bleachers. Hussey have previously completed the Dubai Convention Centre, the Hong Kong Convention Centre, the United Centre, the SAZKA Arena, Prague, the Belgrade Arena and OZO Arena in Lithuania.

With our UK design and management team and the HUSSEY HQ in Maine, we have created a powerful combination of competitive production techniques, global procurement and European design.

## Product Specification: Maxam - Telescopic Platforms

Hussey Seatway Ltd

### Description

The Maxam telescopic platform is a traditional bleacher style retractable seating system designed for use in sporting facilities. The layout of the systems can be customised to meet the ongoing and ever changing requirements of sporting venues whilst still maximising capacity.

The Maxam bleacher provides a tiered seating structure to enhance the audience experience. The injection moulded court side bench is typically specified on the system, mainly due to the strength, comfort and low maintenance it offers. Alternatively wooden or upholstered benches can be supplied in place if required.

The Maxam retractable platform is a proven, reliable and safe system that is quick and efficient to operate at the touch of a button.

#### Types:

**Fixed** - Wall and floor attached.

**Recessed** - Recessed into wall space.

**Mobile** - Mobile units for fully flexible positioning.

### Applications

Maxam Telescopic platforms are designed and engineered to meet the seating needs of a wide variety of applications and venues that require both seated spectators and the multi-purpose use of floor space.

For example;

- Sports Halls
- Arenas
- Multi purpose venues

### Standard Dimensions

**Row Rise** 244mm, 295mm, 406mm

**Row Depth** 560mm, 610mm, 600mm

### Features

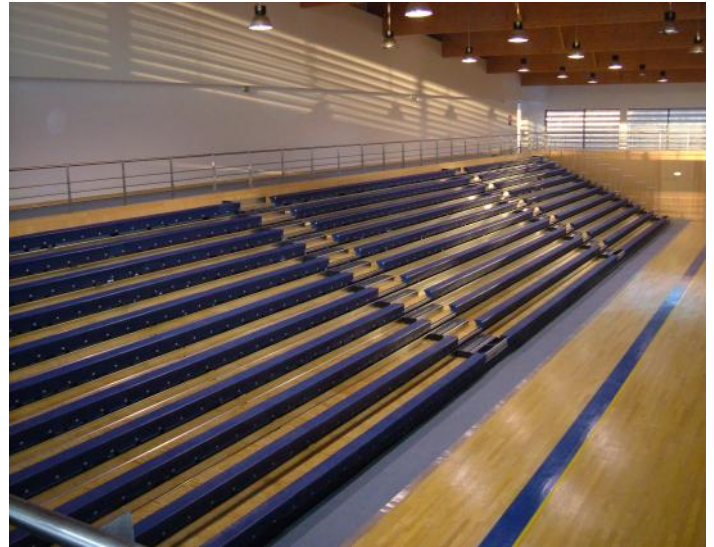

- Automatic, row to row, safety locking.
- Row to row, parallel and vertical, column interlock.
- 125mm diameter x 40mm wide wheels as standard.
- Galvanised finish to front and rear beam
- 5 year guarantee on all understructure parts

### Accessories

- Front, side and rear rails.
- Power assist and integral power operation systems.
- Access steps and stair units.
- Safety end curtains
- Flex rows to accommodate disabled seating positions
- Tapered end sections
- Signature logo program

### Technical:

Please contact our Technical department for a full specification and for application drawings. We offer a free seating solutions design service and welcome the opportunity to input the design of your facility.

## Product Specification: Maxam Plus- Telescopic Platforms Hussey Seatway Ltd

### Description

The Maxam Plus Telescopic Platform System is regarded as one of the most reliable and robust on the market. The platforms are manufactured to order and can be customised to meet client specifications. The smooth and efficient operation enables the seating to be deployed in seconds. A variety of chairs from the Hussey Seatway range can be installed on Maxam Plus platform providing the audience with an unrivalled experience.

The system provides economic seating solutions for projects and is ready to perform in the most demanding of audience environments.

#### Types:

**Fixed** - Wall and floor attached.

**Recessed** - Recessed into wall space.

**Mobile** - Mobile units for fully flexible positioning.

### Applications

Maxam Plus Telescopic platforms are designed and engineered to meet the seating needs of a wide variety of applications and venues that require both seated spectators and the multi-purpose use of floor space.

For example;

- School Halls
- Lecture Theatres
- Exhibition Centres
- Sports Halls

### Standard Dimensions

**Row Rise** 244mm, 295mm, 406mm

**Row Depth** 762mm, 813mm, 838mm

### Features

- Automatic, row to row, safety locking.
- Row to row, parallel and vertical, column interlock.
- 125mm diameter x 40mm wide wheels as standard.
- Galvanised finish to front and rear beam
- 5 year guarantee on all understructure parts
- High tension bracing

### Accessories

- Front, side and rear rails.
- Power assist and integral power operation systems.
- Front fascias and panel systems.
- Access steps and stair units.
- Safety end curtains
- Flex rows to accommodate disabled seating positions
- Tapered end sections

## Product Specification: Type TP - Telescopic Platforms Hussey Seatway Ltd

### Description

Hussey Seatway Type TP, theatre quality telescopic platforms have been developed in the UK specifically for use in theatres and performing arts facilities where a stiffer, more solid feel to the structure is required and where comfortable, full theatre chairs need to be installed. A range of seat types can be specified but the 'Gallery 2' PC Chair and the 'Arts' PC Chair are typical.

The TP platform systems can be open and closed manually or by integral power systems that enable the transformation of empty spaces to seated performance venues within minutes.

#### Types:

- TP- F** Wall and floor attached.
- TP- R** Recessed into wall space.
- TP- M** Mobile units for fully flexible positioning. (Can be moved on castors or air bearings.)
- TP- T** Travelling system. (A complete block that can be powered into a new position.)

### Applications

TP Telescopic seating is suitable for a range of applications that require both seated spectators and the multi-purpose use of floor space.

For example;

- Theatres and Arts Centres
- School performing arts spaces
- Conference and Exhibition Halls
- Arenas

### Standard Dimensions

**Row Rise** 260, 280, 300 & 320mm.

**Row Depth** 850, 900 & 915mm

**Closed Depth** = Row Depth + 320mm.

**Closed Height** = (No of rows x Row Rise) + 190mm.

The Hussey Seatway TP system is designed to be customised and re-engineered easily, so please contact our Technical dept. if these dimensions do not fit your requirement.

### Features

- Distinctive fully welded platform design
- Automatic, row to row, safety locking
- Parallel guidance system for straight line operation.
- Stiff and dynamically correct under-structure that features Hussey Seatway's unique 'space frame' construction methods.
- Row to row, parallel and vertical, column interlock.

### Accessories

- Front, side and rear handrails.
- Power assist and integral power operation systems.
- Front fascias and panel systems.
- Access steps and stair units.
- Moving systems for Mobile units.

### Technical:

Please contact our Technical department for a full specification and for application drawings. We offer a free seating solutions design service and welcome the opportunity to input the design of your facility. Please also see overleaf for basic drawings and technical information.

## Product Specification - Club Bench

Hussey Seatway Ltd

### CLUB Bench

Designed and manufactured in the U.K, the CLUB Bench is a premium sized upholstered bench and backrest seating system designed for use with Hussey **Maxam Plus** and Hussey **Seatway** theatre quality, telescopic platforms. It's simple, manual folding action, is very efficient and closes the back into a small space, allowing a minimum rise per row of just 244mm. CLUB is efficient, robust, simple to operate and will add extra revenue to most facilities.

### Applications

The CLUB Bench provides very comfortable seating with the flexibility of tailoring the seating space to suit young children and larger adults, as required. Designed mainly for use in schools and small theatres, CLUB will also suit multi-purpose venues where durability and good looks are important requirements.

### Features

- Seat centres from 450mm.
- Preformed plywood, seat and back structure with fully contoured upholstery.
- Manual folding, bench backrest.
- Steel framed backrest that prevents 'foot' damage from the row behind.
- Veneer or paint finished front fascia boards.
- Specify **Maxam Plus** telescopic platforms with 245mm or 295mm Rise per row and 838mm Row Depth or;
- Specify **Seatway TP**, theatre quality, telescopic platforms with a 260 to 400 Rise per row and 850 to 900mm Row Depth.
- A tread mounted, fixed version is available to complement the CLUB Bench.

### Finishes

Seat/back: Fully upholstered, 'Flamblend' fabric. Customers own fabric can also be sourced and specified.

Metalwork: Satin black, medium texture, epoxy powder coat.

### Options

- Available without backrest
- Custom colours for backrest frame to co-ordinate with chosen fabric.
- Show wood backrest panels.
- EcoGlo photo-luminescent letters and aisle trim.
- TPCare service and maintenance agreements.

### Technical

For all technical details, please see the reverse side of this specification sheet.

Maxam and Seatway TP telescopic platform brochures and data sheets are available on request.

## Product Specification - INTEGRA 2

Hussey Seatway Ltd

### INTEGRA 2 - PC Chair

Designed by Bluecube Ltd, Integra 2 integrates perfectly with Hussey Seatway's type TP, theatre quality, telescopic platforms or the Hussey maxam Plus systems. Available in 2 widths, with or without armrests and a variety of upholstery finishes, the Integra 2 Chair can be specified in 3 comfort levels from polymer seat and back, with padded on-serts or with full upholstery. Integra 2 provides correct posture, excellent levels of comfort and is durable and easy to maintain.

#### Applications

A highly versatile and durable, beam mounted chair, designed for use in arenas, multi-purpose halls, sport halls, schools and colleges.

#### Features

- Multi seat centres from 460mm to 560mm.
- Patented 'Flexrail' system allows replacement of complete seat modules in seconds.
- Slim profile for wide, safe row access.
- Spring activated tipping with a 'soft action', fully enclosed stop mechanism that cannot trap fingers or clothing.
- Available with and without armrests.
- Upholstered on-serts and full upholstered types can be maintained quickly and efficiently.
- Designed for use on telescopic platforms with at least 244mm row rise and 838mm row depth.
- Fixed & Flat Floor versions are available to compliment PC Chair installations.

#### Finishes

Seat/back: Dark Grey (RAL 7016) polymer mouldings.  
Upholstery fabric - Bradbury 'Omega' and 'Flamblend' to colour choice.  
Customers own fabric can also be specified.

Metalwork: Satin black epc c/w silver anodised beam.

Armrests: Satin black epc c/w plastic pad.

#### Options

- Seat numbers.
- Aisle letters and numbers.
- Integral folding writing tablets
- Custom colours for seat & back to co-ordinate with chosen fabric. Minimum quantities are req'd.
- Upholstered armrest pads to match seat & back.

#### Technical

INTEGRA 2 is certified to BS EN 12727 - test level 4.  
INTEGRA 2 upholstery meets BS 5852: 1990 (crib 5)  
Using gas injection technology, the seat and back have a rigid 'perimeter tube' that needs no metal supports.

## Product Specification - ARTS Chair

Hussey Seatway Ltd

### ARTS PC Chair

Designed and manufactured in the U.K, the ARTS PC is a premium sized nose mounted theatre chair designed specifically for use with Hussey Seatway theatre quality, telescopic platform systems. It's unique folding action, with auto armrests, closes the chair down into a small space, allowing a standard row rise of just 260mm. The chair is efficient, simple to operate and will add extra revenue to most facilities. A range of chair widths, high quality finishes and accessories can be specified.

### Applications

ARTS PC is a very comfortable theatre chair, designed mainly for use in theatres and arts based multi-purpose halls but equally at home in corporate rooms and hospitality suites. For fixed tiers, specify the Hussey Seatway ARTS Chair, reference number SS010.

### Features

- 500 to 560mm seat centres.
- Preformed birch plywood, seat and back structure with fully contoured upholstery.
- Automatic folding armrests.
- Spring activated tipping with a fully enclosed, silent stop mechanism that cannot trap fingers or clothing. All metal to metal contact has also been eliminated.
- Designed for use on Hussey Seatway **TP** telescopic platforms with a 260mm—280mm row rise.
- A fixed version is available to compliment the PC.

### Finishes

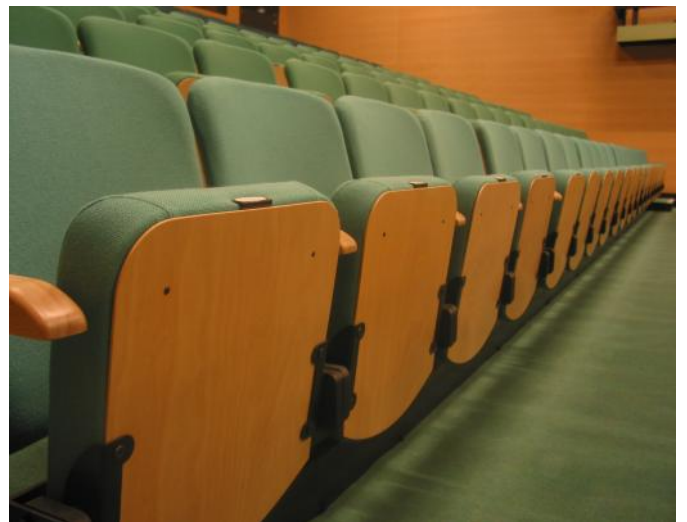

Seat/back: Fully upholstered, 'Flamblend' fabric or Bute Fabrics 'Elgin'. Customers own fabric can also be specified.  
 Metalwork: Satin black, medium texture, epoxy powder coat.  
 Armrests: Black satin lacquer.

### Options

- Seat numbers.
- Aisle letters and numbers.
- LED powered aisle lighting.
- Custom colours for seat frame to co-ordinate with chosen fabric.
- Beech wood armrests, finished in clear lacquer.
- Show wood seat and / or backrest panels.
- EcoGlo photo-luminescent letters and aisle trim.

## Product Specification: LT - Lecture Theatre Seating

Hussey Seatway Ltd

### Description

Hussey Seatway Type LT Lecture Theatre seating was developed in the UK specifically for use in schools, colleges and universities. The system comprises an under-structure, which can be customised to suit any room, including curved installations, and a range of seat types with writing tables. The 'Gallery 2' and 'INTEGRA 2' chairs have been adapted to work very well with the LT system.

LT systems can be specified as follows;

- LT1** A complete system with under-structure, chairs and tables.
- LT2** Chairs and tables engineered to suit existing tiers.
- LT3** Under-structure only.

### Applications

LT lecture seating is suitable for most types of learning facilities and is almost always custom engineered to suit the room and the sight lines required.

Various electrical and communications features can also be built into the system.

Hussey Seatway offers a free, no obligation, advice and design service. We are also keen to tackle more difficult and interesting projects.

### Standard Dimensions

- Row Rise** Custom - from 100 to 510mm.
- Row Depth** Custom - from 900 to 1100mm.
- Table Height** 740 mm.
- Table Width** Custom - from 280 to 350 mm.

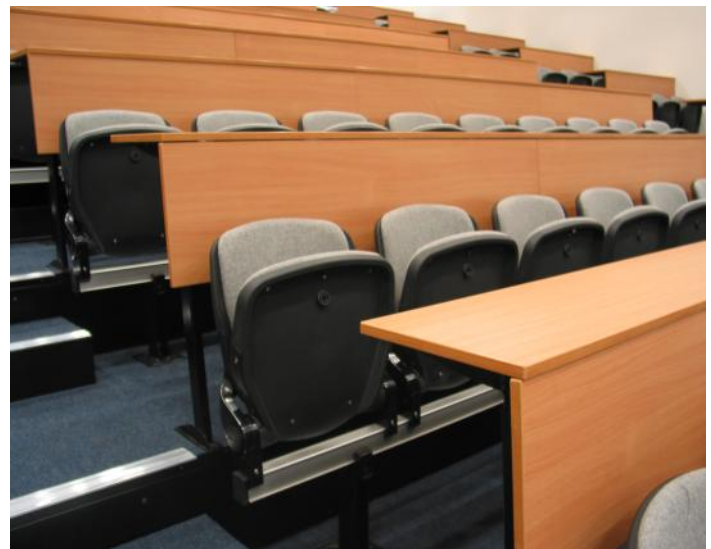

The Hussey Seatway LT system is designed to be customised and re-engineered easily, so please contact our Technical dept to discuss the specification that fits your requirement.

### Features

- Steel under-structure from flat floor to new tiers.
- Stiff and dynamically correct under-structure that features Hussey Seatway's 'space frame' type fabrication methods.
- 24mm thick construction plywood floors and risers.
- Carpeted floors and risers are standard, most floor finishes can be specified.
- Various aisle trims and intermediate step designs.
- Wood veneered, lacquered, 26mm thick table tops.
- Robust 50mm square steel seat/table frame.
- High quality, powder coated finishes to choice.

### Technical:

Please contact our Technical department for a full specification and for application drawings. We offer a free seating solutions design service and welcome the opportunity to input the design of your facility. Please also see overleaf for basic drawings and technical information.

ENGINEERING SPACE

## Product Specification: MAXAM 24 - HSM24

Hussey Seatway Ltd

### Description

Hussey Seatway Type 'MAXAM 24' is a mobile, tiered seating unit that provides a simple to use, rugged and very flexible seating system for school halls and sports halls. Designed and manufactured in the UK, MAXAM 24 can be set alongside a larger installation of MAXAM telescopic seating or used 'stand alone' in a variety of layouts.

Each section is rolled out from its store position and turned over into the use position. A typical set up time for 6 units is approximately 15 minutes.

MAXAM 24 meets all the necessary seating codes, with side and rear safety rails providing protection from falling.

### Applications

MAXAM 24 is suitable for a range of seating applications;

- Schools
- Sport Halls
- Team Benches
- Swimming Pools
- Rental Seating

### Standard Specification

Ref: HSM24

Seats	24 off - Courtside
Row Rise	245mm
Row Depth	660mm
Width	2740mm
Stored Depth	1165mm.
Stored Height	2360mm.

Ref: HSM24A (Aisle Unit)

Seats	18 off - Courtside
Row Rise	245mm
Row Depth	660mm
Width	2740mm
Stored Depth	1165mm.
Stored Height	2360mm.

### Finishes

Seats	Standard Maxam colour range.
Metalwork	Satin Black EPC.
Beams	Galvanised
Decks	Grey PVC

### Features

- Rolls away to store.
- Efficient storage.
- Rugged - simple to use and maintain.
- Stiff and dynamically correct under-structure.

### Accessories

- Side safety rails.
- Intermediate steps - For HSM24A.
- Hot dipped galvanised finish available.

### Technical

Please contact our Technical department for a full specification and for application drawings. We offer a free seating solutions design service and welcome the opportunity to input the design of your facility. See over for more detail of this product.
